CHECKLIST – NATURAL OR BUILT?

Natural Features are those that exist without people making them. For example: trees, creeks, cliffs.	**Built Features** are made by people. For example: roads, buildings and bridges.

Activity 1: Place a circle around the natural features and <u>underline the built features</u> listed below.

path	**river**	**light**	**bridge**	**mangroves**	**pond**
crabs	**trees**	**weir**	**road**	**stormwater drain**	**house**

Activity 2: Use this table to record the natural or built features that you discover on your walk.

	Natural Features		Built Features

Activity 2: If trees have been planted in an area, should we label them as a natural or built feature? On the back of this page, write a reason for your answer.
